BERNHARDT

*The First Made to Measure
Corporate Service*

ABOUT the BRAND & CORPORATE Program

The corporate wear programme was created by Bernhardt to cater specifically to the needs of the hospitality and leisure industries.

A three tier system of first line, standard line and starters allows you to create a collection of professional attire that reflects the unique aesthetic of your brand within a range of budgets.

In addition there is a range of formal wear and casual wear to choose from, in a selection of colours and sizes, with multiple customisation options that reflect the brand identity that you have created.

Whether you opt for basic work-wear silhouettes in a selection of hard-wearing fabrics or design a bespoke collection completely from scratch, every item will be executed with the same skill and care that has established Bernhardt as a world leader in fine garment manufacturing.

FABRICS

Bernhardt Corporate offers you exclusive quality fabrics from the worlds leading manufacturers.

So that we are able to satisfy as many requirements as possible from our customers, we keep most of the fabrics year-round in stock. There are also thousands of fabrics available to order.

The most prominent suppliers for the First line are represented by Italien textile manufactures such as Successori REDA, Vitale Barberis Canocico and Brisbane Moss. Fabrics for this collection are not washable.

Paulo de Oliveira, with one of the most modern and efficient production units with the most advanced technology in the world in this field, is the exclusive supplier for the Standard line, Formal wear and Mix & Match collection. All fabrics (except First Line) are washable and processed with:

TEFLON® FABRIC PROTECTOR TECHNOLOGY:

- repel and release technologies can make every product perform its best.
- Teflon® fend off soiling, stains and spills on wool, cotton and blends without impacting the fabric's weight, look, feel, color or breathability.
- Indoors, Teflon® makes it easier to keep fabrics looking fresh and clean.

Sleeve length ± 1 cm
Jacket length ± 1 cm
Half back ± 0,5 cm
1/2 Circumference ± 0,5 cm

1/2 Waist ± 0,5 cm
Outseam ± 1 cm
Inseam ± 1 cm
1/2 Bottom width ± 0,5 cm

Back length ± 1 cm
Opening ± 1 cm
1/2 Circumference ± 0,5 cm

Description:
The jacket length is often determined by the customer's personal taste and current fashion trends.

As a general rule, the correct length can be achieved by asking the customer to rest his arms naturally at the side of the body and clench his fists (see the sketch)
For jacket type 1L or 1LS, add 10/12cm to the recommended jacket length.

Recommendation:
When jacket type 1L or 1LS are requested, the pockets will be adjusted automatically in proportion to the required jacket length.
Use code 126 to keep the pockets in the original position

! Please note when a jacket length is increased or decreased from the normal block length the pocket position will be moved by 50%
